

#1105

Laboratory Scale Completely Developed

TAILORED MIXTURE OF GLYCERIDES AS LOW-COST CHROMATOGRAPHIC STANDARD

DESCRIPTION

Ad-hoc glycerides mixture (mono, di and triglycerides) for use as chromatography calibration standard. Mixture obtained by a simple and novel two-step enzymatic method.

APPLICATIONS

Pharmaceutical | Food | Cosmetic industries | Low-cost standard for chromatography

ADVANTAGES

- Green, environmentally friendly obtention process
- Inexpensive calibration standards
- Easily tailored mixtures to specific uses

DEVELOPMENT STATUS

Laboratory scale completely developed.
