Antioxidant-rich Dietary Supplement

DIETARY SUPPLEMENT RICH IN NATURAL ANTIOXIDANTS
FROM CAPER LEAVES AND ORANGE

DESCRIPTION

Powder containing an encapsulated mixture of raw extracts of bioflavonoids (rutin and hesperidin) and vitamin C from natural sources. The product, obtained by spray drying, exploits the synergistic effects of the antioxidants.

APPLICATIONS

Improvement of circulatory deficiencies | Increased intake of natural antioxidants

ADVENTAGES

- Natural sources of antioxidants
- Improved antioxidants stability
- Improved water solubility of the bioflavonoids

DEVELOPMENT STATUS

Under laboratory development.
