

#5206

Fluidized-bed granulator laboratory and pilot plant scales

DESCRIPTION

Equipment for particle granulation, drying, and coating. Designed for R&D.

MAIN FEATURES

- Capacity: 200 g - 1 kg
- Operation: batch
- Digital parameter control

MAIN APPLICATIONS

- Development of granulated products (coated urea)
- Co-processed by casting (excipients)
- Drying and coating of powders and pellets (fertilizers)

ASSOCIATED CAPABILITIES

2202 - 2203
